

BOURBON COUNTY - DESIGNATED CRITICAL HABITATS

BROADHEAD SKINK - *Eumeces laticeps* (Schneider, 1801)

Status: Threatened in Kansas

Currently, the following areas are designated critical for Broadhead Skinks:

All stands of mature oak woodland within the Bourbon County. Stands of suitable timber anywhere within the skink's probable range may, upon field investigation, also be found to be essential for conservation of the species.

COMMON MAP TURTLE - *Graptemys geographica* (LeSueur, 1817)

Status: Threatened in Kansas

Currently, the following areas are designated critical for the common map turtle:

The main stem of the Marmaton River from the Allen/Bourbon County border (Sec. 14-T26S-R21E) to the Kansas/Missouri border (Sec. 24-T25S-R25E).

HORNYHEAD CHUB - *Nocomis biguttatus* (Kirtland, 1840)

Status: Threatened in Kansas

Currently, the following areas are designated critical for the hornyhead chub:

- (1) The main stem of Marmaton River from the K-3 crossing (Sec. 27-T25S-R22E), into the City of Fort Scott (Sec. 30-T25S-R25E).
- (2) Mill Creek from U.S. 54 crossing (Sec. 23-T25S-R25E) into the City of Fort Scott, at the confluence of the Marmaton River (Sec. 30-T25S-R25E).
- (3) Pawnee Creek from the south point of entry into (Sec. 18-T26S-R24E), to the confluence of the Marmaton River (Sec. 7-T26S-R24E).

NORTHERN SPRING PEEPER - *Pseudacris crucifer crucifer* (Wied, 1838)

Status: Threatened in Kansas

Currently, the following areas are designated critical for Northern Spring Peepers:

All temporary and permanent wetlands within that portion of Bourbon County lying south of U.S. 54 and east of a line beginning at the junction of K-3 and U.S. 54 (Sec. 22-T25S-R22E), running south on K-3 to the junction of K-3 and K-39 (Sec. 2-T27S-R22E), continuing east along K-39 to the junction of K-39 and K-7 (Sec. 17-T27S-R24E), and south along K-7 to the Bourbon/Crawford County border (Sec. 19-T27S-R24E).
